SOLAR RACING NEWS

FOR IMMEDIATE RELEASE

2,300-mile Solar Car Race Coming to Springfield, Ill.

What: The American Solar Challenge (ASC), a 2,300-mile solar car race from Chicago to the Los Angeles area along historic Route 66, July 15-25. The American Solar Challenge is an educational event in which university teams, companies and clubs compete to build and race solar-powered cars across the country. About 30 solar-powered cars are participating in the race. The car with the fastest cumulative time will win the competition, which is the longest solar car race in the world.

When: Solar cars are expected to pass through a checkpoint in Springfield between July 15-16. Race officials will keep the checkpoint location open from 7:45 a.m. to 6 p.m. The fastest cars could reach the checkpoint as early as noon July 15. Cars are required to stop for 30 minutes.

Where: The Springfield checkpoint is located at Lincoln Land Community College, 5250 Shepherd Road.

How: Daily race results will be posted on the Internet at www.formulasun.org/asc. Solar cars can be tracked online at www.formulasun.org/asc/tracking/index.html.

The Race: The American Solar Challenge News Center will be operational July 16-25. Call Gary Schmitz at 909-869-4863 for information, or email at gary_schmitz@nrel.gov.
